"Kind of Like Wyoming" is exactly that. Its a mix of our values and where we come from. It is simply, Rocky Mountain Country..."

"Every now and then the right voice teams with the right musicians possessing the right attitude - that has happened with the Sean Curtis Band. How awesome it has been to see Sean and his crew gel and grow as a band; transforming themselves in to so much more than the average bar band. They are tight with a unique sound combined with Sean's spectacular vocal style. After thirty years in the business, I know instinctively that the Sean Curtis Band will be the group I can say, 'I knew them when.'"

Scott K. James - Clear Channel Radio

"The Sean Curtis Band is a new and refreshing band with great vocals, stage presence and a variety of music to perform. Their Original music is great! I would recommend the Sean Curtis Band for any stage with their ability to entertain any crowd from 100 to 10000"

Mitch - The Outlaw Saloon of Cheyenne
